SECTION III. SPECIFICATIONS FOR 2022 BEDDING PLANT ORDERS

3.01 Contract Specifications/Document:

1. Separate contracts shall be awarded for each of the two bedding plant orders. One will be awarded for the Park Flower Program and one for the Flower Island Program. In order to reduce the risk of damage and loss to the Park District, the bids will be awarded to different vendors, even if a single vendor is low bidder for all of the bedding plant orders.
2. An agreement stating the obligations of the Park District and the vendor shall be required.

3.02 Price

1. On each Bedding Plant Order List (i.e., Park Flower Program and Flower Island Program) the vendor shall provide a price per flat, a total price for each variety, and a grand total price for all varieties. **The grand total price shall be considered the bid on that order.**

3.03 Substitution Policy: Substitutes shall be held to a minimum and all substitutes for listed varieties must be approved by the Park District staff prior to the delivery date.

1. During the bidding process, if a listed variety is not available, the vendor should propose an appropriate substitute on the bid sheet.
2. In the event that there is a problem obtaining seed or plants, or there is a partial or total crop failure of a specific variety, bidder shall notify the Park District, as soon as possible and work to recommend and approve suitable substitutes.

3.04 Cultural and Delivery Specifications

1. Cell Pack Requirements: For each variety, the required cells per flat are specified on the Bedding Plant Order List. Listed below are the permitted Cell Pack Configurations.

Cells Per Flat	Cells Per Pack	Trade Name
18	1	Deep 18-01*

*** All varieties specifying cells per flat must be grown in Deep 18-01 (3 $\frac{3}{8}$ " L x 3 $\frac{3}{8}$ " W x 3 $\frac{1}{2}$ " H) cell pack configurations.**

Champaign Park District: Request for Bids for Bedding Plants for 2022

(Not permitted are cell designs that encourage the spread of root systems from one cell to surrounding cells.)

2. For bedding plant requiring pots, the pot trade name and the number per flat are specified on the Bedding Plant Order Lists. Listed below are the minimum pot dimensions and the required number of each pot per flat.

Pot Name	Minimum Dimensions	#/Flat
Tall Quart	4”L x 4”W x 4 1/2”H	12
One Gallon	6 1/2” W x 6 1/2” H	6

3. Note the **Cultural Instructions** for each variety on the order list:
 - a. In the column specifying **‘Pinch’** instructions, most varieties require pinching on an ‘as needed’ basis. With bedding plants so specified, pinch as needed to provide full-sturdy plants. Planting dates, growth rates, weather conditions, and actual delivery dates will determine what needs to be pinched. If the need for pinching is not clear, consult with the CPD Staff. Please note there are some bedding plant varieties where pinching is **not** permitted.
 - b. The **Maturity at Delivery** column specifies the level of maturity the Park District expects when the bedding plants are delivered with the terms ‘Blooming or Green’. The goal is bedding plants of optimal development for transplanting. When seeding and plug transplanting dates are scheduled, take note of the wide range of delivery dates.

Some bedding plant varieties are in an optimal stage for transplanting when they are in bloom. In the **Maturity at Delivery** column these varieties are specified as ‘Blooming’.

With some bedding plants over-maturity can be a problem. There are varieties that do not perform well in the landscape if they are in full bloom and/or tall and spindly and/or root bound when transplanted. With these varieties the **Maturity at Delivery** column specifies ‘Green’ along with a recommended height.

There are some bedding plants grown primarily for their foliage. With these plants the **Maturity at Delivery** column will specify only a height.

4. Immature plants, characterized by small-delicate vegetative growth and/or root systems insufficient to hold the soil together when they are removed from a cell-pack are unacceptable.
5. All plants shall be treated with appropriate pesticides to control insect and disease problems. On delivery the plants need to be free of insect, disease, and weed pests as well as any hazardous pesticide residues.
6. Use chemical growth retardants with caution. Bedding plants under the influence of growth retardants at the time of delivery are not permitted. If there is a question about the use of or need for chemical growth retardants, consultant with the Horticultural Supervisor.
7. All plants are to be acclimated to outdoor conditions (i.e. temperature, wind, etc.) for one week prior to delivery.
8. Delivery instructions are as follows:
 - a. Proper identification of individual packs within a flat is required. A minimum of four (4) labels per flat shall be placed within the flat.

Champaign Park District: Request for Bids for Bedding Plants for 2022

- b. Delivery dates specified on the Order Lists are approximate. Growers will receive a minimum 24 hours advance notice of exact delivery times.
- 3.05 Right to Refuse Delivery and/or Payment
The Champaign Park District reserves the right to refuse delivery on and/or payment for all plants that fail to meet the cultural and delivery specifications.
- 3.06 Container Recycling
The Champaign Park District will make non-disposable flats available for pickup to the vendor once the planting season has concluded, if requested.
- 3.07 List of Seed and Plant Vendors
A list of seed and plant vendors is provided below. The list includes the Key for the Code Letters used on Bedding Plant Order Lists. This is for information only. Bidders are not limited to vendors shown.
